First success in 3D printing

Gorgé group announced the first sale of a 3D printer since the launch of this activity.

The new subsidiary of Gorgé Group, Prodways (www.prodways.com), has booked its first deal during the Euromold trade fair: a D35 Producer dedicated to biomedical applications. The customer is an international group with a turnover around tens of billions euros. This producer will be used for the production of several thousand parts per year, replacing a fleet larger than ten 3D printers less efficient. The selling price is about 300 to €400K. Customer will be delivered in 2014.

During Eumold, Prodways has presented in world premiere its new range of four 3D printers for large parts.

Many journalists were present and welcomed warmly Prodways' innovation:

"I am convinced that this is original."

"This is definitely one to keep an eye on." 3D printing industry

"Their enthusiasm for their work is completely absorbing and infectious. It seems highly probably the additive manufacturing community in Europe and further afield will be hearing a lot more about Gorgé, Allanic and their Prodways creations." TCT Magazine

"Now he's ready to go up against market leaders 3D Systems Corp. (DDD) and Stratasys Ltd. (SSYS)" www.Bloomberg.com

"Prodways, new gen 3D printers ready to compete against market leaders" www.3ders.org

Euomold was marked by numerous business meetings and contacts in several industries: biomedical, dental, jewelery, rapid prototyping, motorsport and technical ceramics.

Following this trade fair, Groupe Gorgé's belief to become one of the worldwide major players in the 3D printing industry has been reinforced.
