Gorgé Group announces several commercial successes in the safety sector

Several significant successes were achieved by Group Gorgé in the fire safety sector:

CLF-Satrem has just won its largest order to date at over € 4 million. This operation, consisting of the renovating of a well-known Parisian public institution's entire fire protection system will be carried out in 2014 and 2015. It will include the installation of 6,000 sprinkler heads in a building to remain open to the public during the renovations.

For its part, Van Dam announced that it has won an additional phase of a project to provide the largest oil platform currently under construction and its FPSO (floating production, storage and offloading) with fire-fighting and explosion prevention equipment. This order, combined with previous phases of the same project, is the largest project won by Van Dam and represents a two-year contract of more than € 6 million. Further orders for this project located in Asia could be achieved before the end of the year.
