

Smart Safety Systems

Industrial Projects and services

Protection in Nuclear Environments

3D Printing

**About Groupe Gorgé**

Established in 1990, Group Gorgé is an industrial group operating in different areas of expertise:

**Smart Safety Systems** – Using technology to work in risk environments;

**Protection in Nuclear Environments** – Protecting people and securing buildings operating with radioactive materials;

**Industrial Projects & Services** – Conducting Robotics and Fire protection systems projects for industry and service-sector player;

**3D Printing** – Enabling major industry players to find new routes to successful innovation and production processes by providing systems, 3D printers and new premium material.

In 2015, the Group reported revenue of €264.5 million. It is backed by 1,536 employees and operations in over ten countries.

Group Gorgé is listed on Euronext Paris and on the US OTC market in the form of ADR.

Euronext Paris:  
Compartment B.  
ISIN code: FR0000062671  
Ticker code: GOE

US OTC market:  
CUSIP NUMBER: 399451 103  
ISIN NUMBER: US3994511034  
Ticker Code: GGRGY / GGRGF

## OCEA, DCI & ECA unveil their common solution for MCM operations - risk control and efficiency for Navies

This offer provides Navies with a solution consisting of:

- a ship designed by OCEA that enhances aluminum's natural qualities and delivers an "increased survivability" to better protect the lives of crew members, the ship's assets and onboard systems.
- an unmanned mine-counter-measure system (UMS) developed by ECA Group composed of autonomous and remotely-controlled robots with a dedicated mission management system used to carry out mine counter measure operations faster than traditional solutions and avoiding the need for human intervention in the mine field.
- an operational concept, training solutions and technical assistance, developed by DCI, specialized in the mine warfare domain, the implementation of robotic systems and the transfer of know-how from the French Navy to foreign naval forces, which guarantees the effectiveness and the long-term sustainability of the solution.

OCEA, DCI and ECA are thus able to provide Navies with an effective capability to carry out mine counter measure operations while reducing the risks for the crews and deployed means.

This solution will also be of interest for the insurance companies of private stakeholders or the decision-makers of countries that are self-insured for military applications.

#### Disclaimer

*This press release could contain statements on past events and forward-looking statements including statements regarding future goals or targets. Forward-looking statements reflect current expectations for results and future events.*

*Such forward-looking statements and targets depend on known and unknown risks, uncertainties and other factors that may cause actual results, performance or events to differ materially from those anticipated herein. All these risks and uncertainties could affect the Group's future ability to achieve its targets. Risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated in the forward-looking statements and targets include, among other things: the risks and uncertainties possibly mentioned in this press release; the strength of competition; the growth of the market; currency fluctuations; interest rate fluctuations; raw materials and freight price fluctuations; armed conflicts or political instability; control of costs and expenses; changes in tax legislation, rules, regulation or enforcement; our ability to successfully keep pace with technology changes; our ability to attract and retain qualified personnel and key-men; the evolution, interpretation and uniform application and enforcement of International Financial Reporting Standards (IFRS), according to which we prepare our financial statements; supply chain bottlenecks; the performance of our business partners (subcontractors, agents, suppliers, etc.).*

*Some of these risk factors are set forth and detailed in our Document de Référence (Registration Document including the annual financial report filed with the French Autorité des Marchés Financiers). This list of risks, uncertainties and other factors is not limitative. Other non-anticipated, unknown or unforeseeable factors could also have material adverse effect on our targets. The Group expressly disclaims any obligation or undertaking to update or revise any forward-looking statements or targets potentially contained in this press release to reflect any change in events, conditions, assumptions or circumstances on which any such statements are based.*
